LabJack Device Counterfeit Parts Prevention (CPP) Policy

LabJack uses two strategies to avoid counterfeit components. The first is to preferentially purchase through reputable channels, meaning that we purchase directly from manufacturers and their authorized distributors. The second is to test key performance specifications of our devices. PCBs are date coded and purchase records are kept so that any detected counterfeits can be traced back to a specific purchase.

This CPP policy applies to all LabJack branded products.

A handwritten signature in black ink that reads "Toby Stensland". The signature is written in a cursive, flowing style.
